Please end the case against Microsoft, now! Microsoft is the gage to the economy in this country!

As a country, we cannot afford to have Microsoft attacked! When Microsoft is attacked, the consumers back off from investing! If you want the economy to go under, just keep Microsoft being attacked by yourselves and MONOPOLY'S like AOL WARNER!!! Their Netscape HAS THE MARKET, and they have NEVER BEEN HURT BY THE LITTLE SHARE OF the internet market Microsoft has!

I WANT AOL TAKEN TO TASK FOR BEING AN AGGRESSIVE MONOPOLY!!!!

The whole country loves and respects Microsoft except a few of their competitors! All companies have competitors so WHY should this company be discriminated against and allowed to be attacked by their competitors as well as their own country who happily take the tax generated from their products!

Sincerely,  
Lorraine M. Snyder
